

T ECHNICAL INFORMATION

New Tool

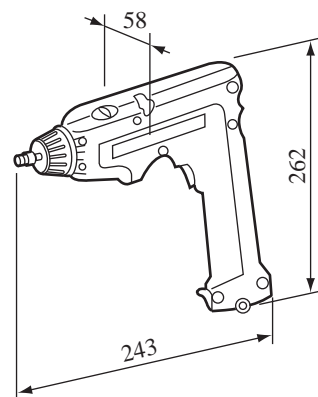

Models No. ▶ 6094D

Description ▶ MAKITA Cordless screw driver

CONCEPTION AND MAIN APPLICATIONS

The machine edge(tool mounting portion) of the 6093D has been reformed for use in the driver bit and designed for meeting the demands for the users who mainly deal in screw fastening. Due to the built-in bit loading/unloading system, unlike our existing screw drivers, the bit can be easily detached just by one touch.

The 6094D is the model without the battery and the charger.
The 6094DW is the model with battery and charger.

► Specifications

| | | |
|--------------------------|----------------------------|--|
| Motor | | DC 9.6 V Magnet motor |
| No load speed | | 0-1100/min. in high speed 0-400/min. in low speed |
