► Features and benefits

1. Well balanced and thin-gripped tool for easy handling.
2. Powerful DC magnet motor (its max. output is about 25% higher than that of the existing Model 6095D/DW).
3. Offers 12 different torque settings with two variable speeds for perfect driving.
4. Keyless drill chuck for fast installation/removal of bit. No chuck key to lose.
5. Variable speeds (High: 0-1,100 R/min; Low: 0-400 R/min) allow easy starting of bit and selecting of speed suitable for your work.
6. Reversing feature for screw/bit removal.
7. Electric brake quickly stops chuck for perfect control when driving screws.
8. Improved motor which does not require overload protector. This means that you can continue to work without interruption by overload protector.
9. Model 6200DW includes steel carrying case.
