

**Subject** ▶ Change on locator

**For Models** ▶ 6811D/DW (Battery-Powered Drywall Screwdriver) and  
6891D/DW (Cordless Drywall Screwdriver)

**Description** ▶ The locator will be changed so that the stopper can be separated from the locator.

The new type locator has the following advantages as the stopper can be separated from it.

1. Screwdriving in tight corners can be performed.
2. Additional tightening and loosening of screws can be performed more easily.
3. The bit can be replaced more easily.

## Interchangeability(I/C)

| Item No. | Current part        |  | Q'ty | I/C | New part            |  | Q'ty | Note                     |
