

- Subject** ▶ Change on the Bolt to Fasten the Stopper Base
- For Models** ▶ 6830 and 6832 (Auto-feed Screwdrivers)
6831D, 6831DWH, 6831DWA (Cordless auto-feed screwdrivers)
- Description** ▶ As illustrated and described below;

	▶ Current	▶ New
Fastening bolt	Hex. socket head bolt M4x8	Hex. socket head bolt M4x18
<p>•The longer fastening bolts prevent the insert nuts from getting loose and keep the stopper base fixed more firmly to the feeder box complete and the box cover complete. Accordingly, the machine is kept square more accurately against the workpiece.</p>		

Interchangeability(I/C)

Item No.	Current part		Q'ty	I/C	New part		Q'ty	Note
33	Hex. socket head bolt M4x8 922107-1		2	<=	Hex. socket head bolt M4x18 922132-2		2	

Note

Interchangeability mark: <= means that the new part can be substituted for the current.
