

TECHNICAL INFORMATION

- Subject** ▶ Change of Switch
- For Models** ▶ 6951
- Country** ▶ All countries
- Description** ▶ For further improvement in electric conductivity of Reversing Switch, some dimensions of Switch have been changed so that the reversing lever will not move unnecessarily when the trigger is being pulled. A dot is stamped on the side of new Switch to distinguish the new Switch from the current one.

Interchangeability(I/C)

Item No.	Current part		Q'ty	I/C	New part		Q'ty	Note
006	Switch 651965-5		1	←	Switch 651965-5		1	Part No. 651965-5 remains unchanged.

Note

Interchangeability mark ; ← means that the new part is substituted for the current.

Implementation

From serial No. 5286E (May, 2000)
