

TECHNICAL INFORMATION

Makita**New Tool****Models No.** ▶ 9900B**Description** ▶ Belt Sander Stand

CONCEPTION AND MAIN APPLICATIONS

This is the belt type sanding stand made up of a base and a guide rail for easily sanding small parts or deburring. This is offered as the special accessory for the 9900B, 9924B, 9924DB and M991 models.

► Specifications

Guide rail dimension	56 x 210 mm
Adjustable angle of the guide rail	45° to 90° to the belt surface
Grinding width	(Same as that of the sanding belt.)
Weight(kg)	

► Features and benefits

1. You can easily sand or deburr small parts with the stand.
2. The guide rail can change its angle freely to suit jobs to be carried out.
3. The belt type sanding unit can be easily mounted to the base, and the guide rail to the sanding unit.
4. It can stable rest with its wide base lined with rubber in the bottom.
