

For Models ▶ DA6300

Description ▶ 13mm(1/2")Angle Drill

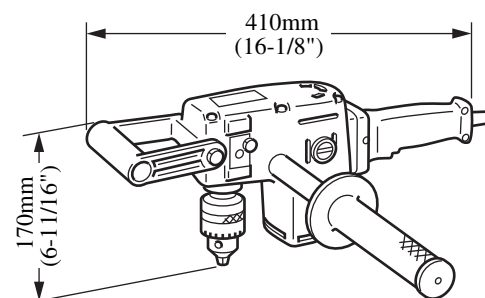

CONCEPTION AND MAIN APPLICATIONS

Two speed model squeezes in to drill in narrow corners.

Reversing feature to remove stuck bit and clean drill hole.

Low r.p.m makes it ideal to stir point, etc.

Triple reduction gearing.

Width : 120mm (4-3/4")

► Specifications

Voltage(V)	Current(A)	Cycle(Hz)	Continuous Rating(W)		Max. Output(W)
			Input	Output	
100	8.5	50/60	810	380	550
115	7.5	50/60	810	380	550
200	4.3	50/60	810	380	550
220	3.9	50/60	810	380	550
230	3.8	50/60	810	380	550
240	3.5	50/60	810	380	550
No Load Speed			1,200R/min. (High) 300R/min. (Low)		
Max.Drilling Capacities			Steel 13mm(1/2") Wood 36mm(1-3/8")		
Net Weight			4.3kg (9.5lbs)		

► Standard equipment

Chuck key S13, Key holder 12, Side grip 30, Steel carrying case

► Optional accessories

Hold saw assembly 79, 95

► Features and benefies

1. 2-speed for efficient drilling in both wood and metal.
2. Forward/reverse switch for easy removal of the bit and easy clean-out of a hole.
3. Can be used for mixing a variety of materials including paints, sprays, plaster, etc. with a mixing blade.
4. Powerful Makita motor (810W) and triple reduction gearing for powerful operation.
5. Removable 2-position side grip and swivel-type spade grip.
