

- Subject** ▶ Change on Compression Spring 39 which prevents the machine from losing blow
- For Models** ▶ HM1100C, HM1100 (Demolition Hammers)
- Description** ▶ As illustrated below, the thickness and number of turns of Compression Spring 39 have been changed.

### Note

The new one is increased in number of turns and in thickness of wire compared to the current one for more strength.

### Interchangeability(I/C)

Item No.	Current part		Q'ty	I/C	New part		Q'ty	Note
31	Compression Spring 39 233166-3		1	<=	Compression Spring 39 233190-6		1	

### Note

Interchangeability mark <= means the new part will be substituted for the current part.

### Implementation

HM1100C: From serial No. 4354E  
 HM1100: From serial No. 1248E
